

SMS PRESENCE

TOWER BOX

Extra spacious media box for your media equipment to the Presence series.

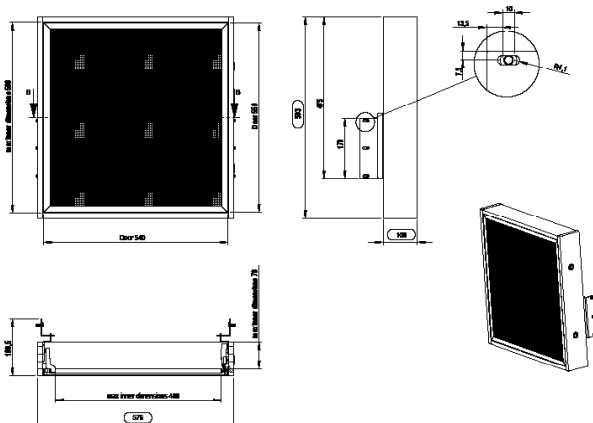

In Presence Tower Box you can place the computer in horizontal as well as vertical position. The product exists in three versions, whereof two fits the mobile products from our Presence series, and the third works for mounting on the Presence Wall/Floor versions. The product is lockable with a key.

The version with the perforated door is suitable for media equipment that generates a lot of heat and needs extra good air circulation.

On our mobile Presence versions you place the Tower Box on the back of the bracket, and if you want you can also fit a Presence Media Box to the front – at the same time
