Introduction

The Atlona **AT-OME-CS31-SA** is an AV presentation and collaboration system for classrooms and conference rooms. It features a 3x1 HDMI® switcher, 50 watt mixer amplifier, and USB 3.0 hub.

The HDMI switcher is HDCP 2.2 compliant and supports up to 4K/60 4:4:4 plus HDR formats for common inputs such as laptops, computers, and document cameras routed to the output connected to a projector or display. The OME-CS31-SA amplifier delivers either two channels of 25 watts or a single channel of 50 watts into 4 or 8 ohms. It features one balanced stereo audio input and two unbalanced stereo audio inputs with independent level control for each. A balanced stereo line level output allows the mixed signal to be passed to an assistive listening system or separate amplifier. The OME-CS31-SA includes USB 3.0 interfaces for two host computers, plus four peripheral devices such as a camera, speakerphone, interactive display, keyboard, mouse, or storage device.

The OME-CS31-SA includes unique capabilities intended for education applications. Ducking automatically lowers the level on all other program audio sources when the teacher speaks into their microphone connected to the balanced line input. PA sense mutes the output of the amplifier whenever it detects activity on the school public address system. Both features ensure important lesson material and announcements are heard clearly.

For control, the OME-CS31-SA includes dual Ethernet ports and two RS-232 ports for automated operation of the switcher itself and other system components from Velocity™ or a third-party control system. The low profile enclosure allows the OME-CS31-SA to be mounted in a variety of locations such as behind a display or under a desk or table.

Applications

- **Classrooms**
  In addition to the AV switching, audio amplification, USB routing, and control needed by modern classrooms, the OME-CS31-SA provides additional features for education environments including ducking program audio for an instructor microphone and muting the system for public address messages.
- **Conference Rooms**
  The OME-CS31-SA is an all-in-one solution for hybrid meeting spaces that need AV switching, audio amplification, USB routing, and display control.

Key Features

- 3x1 HDMI® switcher for common source devices such laptops, computers, and document cameras as well as output to a projector or display.

- Integrated USB hub with two 3.0 type B host ports and four 3.0 type A peripheral ports.

- 2 x 25 watts @ 4/8 ohms amplifier (stereo or dual mono) or 1 x 50 watts @ 4/8 ohms (bridged).

- One balanced stereo line level input and two unbalanced stereo line level inputs on 3.5 mm connections.

- Balanced stereo line level output allows the mixed signal to be passed to an assistive listening system or separate amplifier.

- Supports mixing 3 line inputs, de-embedded HDMI, and USB audio to the amplifier and line outputs.

- Ducking lowers the level of all inputs when audio, such as a teacher microphone, is present on the balanced audio input.

- Supports audio mute with contact closure or PA sense so announcements can be heard clearly.

- Dual Ethernet ports and integrated network switch allows a single connection to an AV LAN for IP control of a display and the switcher.

- Two RS-232 ports for control of the switcher or peripheral devices.

- Two digital I/O ports for automated control from occupancy sensors or other third party devices.

- 5V USB charging port for powering external devices such as a Bluetooth® receiver.

- Energy Star® qualified for power efficiency and cost savings.

- Automatic display control changes display power state via CEC, IP, or RS-232 based on active or standby mode of the switcher or status of an AT-OCS-900N network-enabled occupancy sensor or other sensors connected to the digital I/O ports.

- Auto-switching selects active input when sources are connected or if there is a change in source power status.

- Manages EDID communications with the source through the connected display's EDID or internally stored EDID.

- HDCP 2.2 compliant.

- 4K/UHD capability @ 60 Hz with 4:4:4 chroma sampling.

- Supports HDR10, HLG, and Dolby® Vision™ HDR formats.

- Intuitive GUI-based configuration using integrated web server.

- Front panel LED indicators provide status for power, input selection, and LAN.

- Low profile enclosure for mounting behind a display or under a desk or table.

Specifications

Video	
Signal	Input - HDMI Output - HDMI
Copy Protection	HDCP 2.2

Audio			
HDMI Pass-Through Formats	LPCM 2.0 LPCM 5.1 LPCM 7.1	Dolby® Digital Dolby Digital Plus™ Dolby TrueHD Dolby Atmos®	DTS® Digital Surround™ DTS-HD Master Audio™ DTS:X®
Bit Depth	Up to 24 bits		
Analog Audio			
Format	Stereo 2-Channel		
Balanced Output	+4 dBu nominal gain, +19 dB headroom		
Frequency Response	20 Hz to 20 kHz, ± 0.5 dB		
THD+N	< 0.006% at 20 Hz to 20 kHz		
SNR	> 105 dB at 1 kHz, zero clipping @ 0 dBFS, unweighted		
Sample Rate	32 kHz, 44.1 kHz, 48 kHz, 88.2 kHz, 96 kHz, 176.4 kHz, 192 kHz		

USB	
Compliance	3.0
Maximum Data Rate	5 Gbps
Internal Hubs	2 USB hubs

Ethernet	
Port	2 x RJ45
Standards and Protocols	HTTP, HTTPS, Telnet, SSH, JSON over WebSockets
Speeds	10/100/1000 Mbps
Addressing	DHCP, Static – selectable through built-in web server and API commands

RS-232		
Port	2 x 3-pin captive screw	
Use	Unit and external device control and configuration	
Baud Rates	9600, 19200, 38400, 57600, 115200	
Data Flow	Bidirectional	

CEC	
Ports	1 x HDMI OUT, Type A, 19-pin female
Triggering	Through HDMI

Resolution / Distance	4K/UHD - Feet / Meters		1080p - Feet / Meters
