

FUNC MOBILE MOTORIZED

Easy to move, easy to reach.

Func Mobile Motorized is easy to adjust for different needs. The very stable design is perfect for large displays and touch displays. The pre-assembled motorized height adjustment ensures that the user can work ergonomically, whether very tall, short, standing up or sitting down.

Thanks to the lockable wheels, it is easy to move the unit between rooms. In other words, perfect for places where the display will be the center of attention for people with different needs.

A storage box is included, for e.g. mini PC or codec, easily accessed from the front. The box can be locked with a padlock (not supplied).
